

MEDIA RELEASE 04.10.07

For immediate release

The Portland Songwriters Association announced Tyler Stenson as the Performing Songwriter of the Year. Stenson and his band Lander will take stage May 17th for a celebratory live concert recording at Mississippi Studios, PDX.

For weeks-on-end, a selected group of songwriters met on Wednesday nights at Mississippi Pizza Pub to perform their original songs for PSA members and a panel of mentor judges. Throughout the night, an eclectic group submitted their written lyrics for review and performed two original pieces. Once every writer had gone, the judges unanimously advanced two of the night's contestants to the PSA Top Ten Showcase in March.

The final showcase featured a collection of the ten finalists from the prior weeks. Again, each performer submitted lyrics and performed two more songs for a new panel of mentor judges. In the end, the judges awarded Tyler Stenson as Portland's Songwriter of the Year for his song *Better Be Us All*.

With this medal of honor, Tyler Stenson will be playing an intimate evening with his band Lander at the quaint Mississippi Studios on Portland's historic North Mississippi Street. Stenson will open the night with a 45 minute songwriter showcase then join Lander for a colorful live concert and video recording (compliments of Indiependence Music).

Please join Lander and Portland's Songwriter of the Year for a Spring Concert Event on Thursday May 17th at Mississippi Studios, PDX. Tickets are \$7 and available at www.virtuous.com. Doors will open at 7:30- Stenson will begin at 8pm and Lander will take stage by 9:00.
